### Synopsis:

**In this talk, Nishant will perform some mind-blowing memory demonstrations. He will also talk about the Process Of Memory, Secrets Of Memory, Myths About Memory and General Guidelines To Start Taking Control Of Memory.**

Nishant is the CEO of Memory Vision – The Memory Training Company in Singapore. A World Record Holder and the 1st and only Grandmaster of Memory and International Master of Memory in Singapore, Nishant Kasibhatla is a popular speaker with over 12 years experience in conducting memory training for executives of multi-national companies, school students & individuals of all walks of life around the globe. Some of his corporate clients include: Citibank, Shell, Coca Cola, Philips, Petronas, Nestle, Maybank, LG etc.

He is the author of one of the most comprehensive books on memory techniques – Instant Memory Improvement. He has written a “memory-improvement” column for Singapore Press Holding magazine Shape.

Nishant has made appearances through various media channels like **Zee TV**, one of India's top three TV stations and **MediaCorp's 93.8 live**, one of Singapore's prominent radio stations, to demonstrate just how effective memory techniques can benefit everyone. More importantly, his main focus is on delivering unique, fun and highly effective talks, workshops and coaching programs from which one can profit from having a good memory, whatever their age or station.

Some of his major achievements in the field of memory:

1. Memorized a 1944 digit number.
2. Memorized a 1200 digit binary number.
3. Memorized the sequence of 7 decks of shuffled playing cards (364 cards)
4. Memorized the sequence of 1 deck of playing cards in 1 min 50 seconds
5. Became the best Asian memorizer at the World Memory Championship 2003.

*“Memory management is probably the single most overlooked and underused soft skill of all, so few people have realized the huge benefits that can be gained from it.”*
