TESTIMONIALS

November 2007

I attended my first APTS meeting last week. I found a diverse group of people sharing a common passion for training. They were eager to share their knowledge and experience, and they were very welcoming. The meeting was well-run and entertaining. I enjoyed the speakers and found their presentations interesting and informative. This is a supportive group of high-calibre professionals, and an ideal forum for networking. I look forward to the next meeting.
