Human & System Development Department
Sanden International (Singapore) Pte Ltd
Tel: (65)-6311-3169
Mobile: (65)-9784-4756
Fax: (65)-6482-4572

Abdul Rahman's exposures gravitate in the field of Total Quality Management (TQM). He has numerous experiences in the implementation and maintenance of Management Systems for Quality, Safety, Health and the Environment as well in Organizational Excellence initiatives, in diversified manufacturing sectors including Chemical, Petrochemical, Medical Device, Pharmaceutical and Automotive industries.

Rahman is presently an employee of Sanden International Singapore, as a Manager for the Human & System Development Division. Rahman is in-charge of Strategic Human Capital Management, Strategic Planning and Strategic System Development. All these are enabled through the application of TQM methodology.

His key achievement was to establish the company's framework to attain the Deming Prize in 2006. This is a world's prestigious recognition for the attainment of Organizational Excellence through the application of TQM. Sanden is the first and only company in Singapore to attain this prestigious medal.

Rahman is an internal trainer for Sanden Singapore and subsidiaries in the Asian region, training on TQM and Total Productive Maintenance (TPM).
